NHS BORDERS HEAT PERFORMANCE SCORECARD – MARCH 2013

Aim

This paper aims to update the Board with NHS Borders latest performance towards the 2012/13 national Health Efficiency Access & Treatment (HEAT) targets, as set out in NHS Borders Local Delivery Plan. The attached HEAT Performance Scorecard shows performance as at 31st March 2013.

Background

Strong Performance Management remains a key priority across NHS Borders to ensure robust monitoring of key local and national targets and priorities. Performance Scorecards are embedded across the organisation and individual services continue to implement their own scorecards with the assistance of Planning and Performance.

Attached to this paper is the March 2013 HEAT Performance Scorecard providing a summary of performance in March 2013.

Some areas of strong performance in the March 2013 Scorecard are highlighted below:

- Inequalities targeted cardiovascular health checks has delivered the 2012/13 overall target
- Smoking cessation continues to perform well with the latest available data showing that the 2012/13 target of 510 has been exceeded with 843 successful quits
- Pre-operative stay continues to exceed the target of 0.68
- Online triage of referrals exceeded the 90% target
- NHS Borders achieved the target of 80% of eKSF annual review complete
- Treatment of cancer within 31 days of decision to treat performed at 100% during February 2013 (latest available data)
- 18 Weeks RTT overall performance continues to perform above the target of 90%
- There were 0 delayed discharges over 4 weeks
- Performance has significantly improved with 100% of Alcohol/Drug referrals into treatment within 3 weeks
- Against a target of 0, there were no CAMHS waits over 26 weeks
- Based on the latest available data (October 2012) emergency admissions continue to reduce
- The rate of Staph Aureus Bacteraemia and C. Diff achieved the March 2013 targets of no more than 26 and 45 cases respectively
- 100% of patients were admitted to the stroke unit within 1 day of admission

More detailed information with regards to areas that are not meeting the trajectory set will be contained in the end of year *Managing Our Performance Report*.

Summary

NHS Borders Board Meetings will continue to receive the HEAT Performance Scorecard highlighting the organisation's performance towards the national HEAT Targets.

A 2012/13 *End of Year Managing Our Performance Report* will be presented to the Board at the next meeting, scheduled for 27th June 2013.

Recommendation

The Board is asked to **note** the HEAT Performance Scorecard for March 2013.

Policy/Strategy Implications	Regular and timely performance reporting is an expectation of the Scottish Government
Consultation	Performance against key indicators within this report have been reviewed by each Clinical Board and members of the Clinical Executive
Consultation with Professional Committees	See above
Risk Assessment	Good progress is being made against key targets, but emerging pressure areas are identified in this report. Continuous monitoring of performance is a key element in identifying risks affecting Health Service delivery to the people of the Borders
Compliance with Board Policy requirements on Equality and Diversity	The implementation and monitoring of targets will require that Lead Directors, Managers and Clinicians comply with Board requirements
Resource/Staffing Implications	The implementation and monitoring of targets will require that Lead Directors, Managers and Clinicians comply with Board requirements

INTRODUCTION

DASHBOARD OF HEAT TARGETS

The Dashboard of HEAT Targets shows the performance of each target against a set trajectory. So that current performance can be judged symbols are used to show whether the trajectory is being achieved. These are shown in the table below:

Current Performance Key			
	Under Performing	Current performance is significantly outwith the trajectory set.	Exceeds the target by 16% or greater
	Slightly Below Trajectory	Current performance is moderately outwith the trajectory set.	Exceeds the target by up to 15%
	Meeting Trajectory	Current performance matches or exceeds the trajectory set	Overachieves, meets or exceeds the target, or rounds up to target

So that the direction of travel towards the achievement of the target can be viewed direction symbols are also included in the dashboard. These are shown below:

Direction Symbols

Better performance than previous month	↑
No change in performance from previous month	↔
Worse performance than previous month	↓

HEAT Targets

Every year the Scottish Government Health Department (SGHD) asks each Health Board to report to them on their performance and delivery plans for the next financial year. This report is called the Local Delivery Plan (LDP) and forms an agreement on what Health Boards will achieve in the next year with SGHD. Boards are asked to work towards a number of key targets for the year which fit with the Government's health objectives. These targets are called HEAT targets because they are separated under 4 different headings:

- H Health Improvement
- E Efficiency and Governance
- A Access to Services
- T Treatment for the individual

Planned work with local partners such as Scottish Borders Council is also included.

Please note:

Some anomalies may occur in data due to time lags in data availability and national reporting schedules.

Performance on a total of 33 HEAT targets and standards are detailed within in this report. The following table summarises the achievements for the financial year 2012/13 to date, the arrows indicate performance and direction of travel towards achieving targets compared to previous month:
