

NHS BORDERS HEAT PERFORMANCE SCORECARD – AUGUST 2011

Aim

This paper aims to update the Board with NHS Borders latest performance towards the 2011/12 national HEAT targets, as set out in NHS Borders Local Delivery Plan. The attached HEAT Performance Scorecard for August 2011 shows performance as at 30th June 2011.

Background

During April 2010 Quarterly Performance Reviews were introduced for each Clinical Board. Performance Scorecard reports were produced to inform discussions at these reviews. Following on from these meetings it was decided to follow a Performance Scorecard approach across NHS Borders.

In the first year since April 2010 Performance Scorecards have been embedded across the organisation. Individual services have implemented their own scorecards with the assistance of Planning and Performance. These are available to view on the NHS Borders intranet, available to all staff. This way of working has supported the robust monitoring of targets throughout the Health Board. Planning and Performance have worked closely with Clinical Boards to develop new targets for their areas and these have been introduced into the Clinical Board Scorecards for the 2011/12 financial year.

Attached to this paper is the August 2011 HEAT Performance Scorecard which reports on the month of June 2011. The Scottish Government is developing a national Quality Scorecard to support the newly published Quality Strategy. Once this has been completed the aim is to include this within the HEAT Performance Scorecard.

Key findings from the August HEAT scorecard are as follows:

- Smoking cessation for 1 month or over the April 2011 target of 23 has been overachieved by 27 with 50 quitting patients recorded (please note there is a time lag with this target).
- Sickness and Absence rate -- the target of 4% was met in June 2011.
- 9 week waiting target for outpatients 261 patients were waiting over 9 weeks for an outpatient appointment at the end of June 2011
- 9 week waiting target for inpatients 15 patients were waiting over 9 weeks for an inpatient treatment at the end of June 2011
- 4 week wait for diagnostic tests 6 people waited over 4 weeks for their test which was an increase from May 2011 of 4 patients.
- Reduction in A&E Attendances the target rate of 1,640 was not achieved this month with 2,022 attendances per 100,000 population recorded

- SABs infection rate a total of 2 infections have been recorded for the financial year to end of June, better than the cumulative trajectory of 6.
- Delayed discharges The number over 6 weeks in June decreased to 3 from 10 in May.

Summary

NHS Borders Board Meetings will receive the HEAT Performance Scorecard highlighting the organisation's performance towards the national HEAT Targets reflecting feedback at the April 2010 NHS Borders Board Meeting.

Recommendation

The Board is asked to **note** the HEAT Performance Scorecard for August 2011.

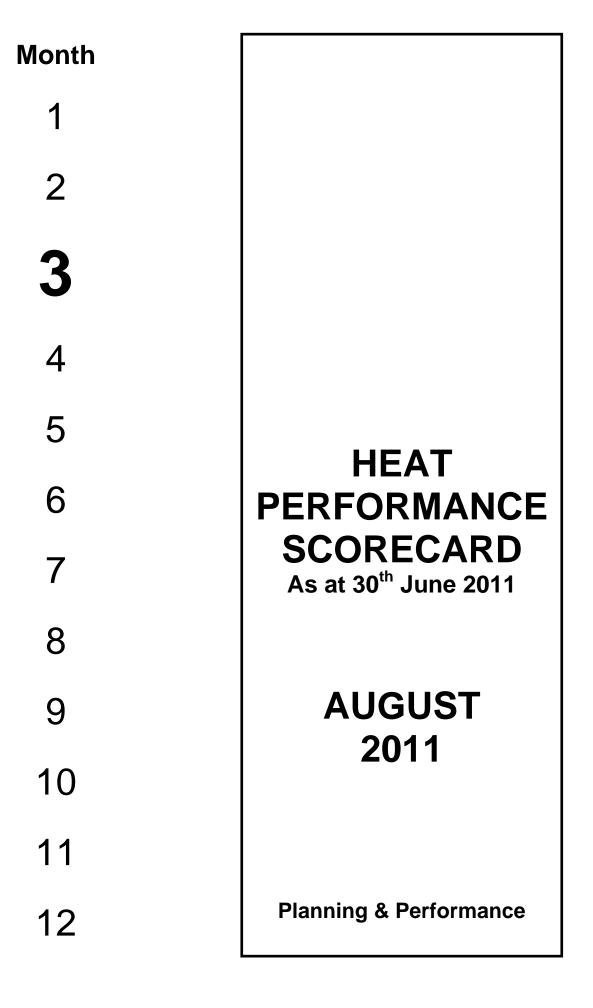

| Policy/Strategy Implications | Regular and timely performance reporting is an expectation of the Scottish Government |
|--|--|
| Consultation | Performance against key indicators within this report have been reviewed by each Clinical Board and members of the Clinical Executive |
| Consultation with Professional Committees | See above |
| Risk Assessment | Good progress is being made against key targets, but emerging pressure areas are identified in this report. Continuous monitoring of performance is a key element in identifying risks affecting Health Service delivery to the people of the Borders |
| Compliance with Board Policy | The implementation and monitoring of |
| requirements on Equality and Diversity | targets will require that Lead Directors, Managers and Clinicians comply with Board requirements |
| Resource/Staffing Implications | The implementation and monitoring of targets will require that Lead Directors, Managers and Clinicians comply with Board requirements |

INTRODUCTION

DASHBOARD OF HEAT TARGETS

The Dashboard of HEAT Targets shows the performance of each target against a set trajectory. So that current performance can be judged symbols are used to show how well the progress compared to the trajectory is being achieved. These are shown in the table below:

| | Current Performance Key | | | | | | | | | | |
|---|------------------------------|--|---|--|--|--|--|--|--|--|--|
| R | Under Performing | Current performance is significantly outwith the trajectory set. | Exceeds the target by 16% or greater | | | | | | | | |
| | Slightly Below Trajectory | Current performance is moderately outwith the trajectory set. | Exceeds the target by between 6 and 15% | | | | | | | | |
| G | Meeting Trajectory | Current performance matches or exceeds the trajectory set | Overachieves, meets or exceeds the target, or rounds up to target | | | | | | | | |

So that the direction of travel towards the achievement of the target can be viewed direction symbols are also included in the dashboard. These are shown below:

Direction Symbols

| Better performance than previous month | 1 |
|--|---|
| No change in performance from previous month | ŧ |
| Worse performance than previous month | Ļ |

HEAT Targets

Every year the Scottish Government Health Department (SGHD) asks each Health Board to report to them on their performance and delivery plans for the next financial year. This report is called the Local Delivery Plan (LDP) and forms an agreement on what Health Boards will achieve in the next year with SGHD. Boards are asked to work towards a number of key targets for the year which fit with the Government's health objectives. These targets are called HEAT targets because they are separated under 4 different headings:

- H Health Improvement
- E Efficiency and Governance
- A Access to Services
- T Treatment for the individual

Planned work with local partners such as Scottish Borders Council is also included.

Summary of Performance

Performance on a total of 29 HEAT targets and standards are detailed within in this report. The following table summarises the achievements for the financial year 2011/12 to date:

| Indicator | April 11 | May 11 | Jun 11 | Jul 11 | Aug 11 | Sep 11 | Oct 11 | Nov 11 | Dec 11 | Jan 12 | Feb 12 | Mar 12 |
|---|----------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|
| Alcohol brief intervention | R | R | | | | | | | | | | |
| Smoking cessation for 1 month or over | G | | | | | | | | | | | |
| Number of inequalities targeted cardiovascular health checks | G | G | G | | | | | | | | | |
| New patient DNA rate | | | | | | | | | | | | |
| Pre-operative stay | G | G | | | | | | | | | | |
| Online Triage of Referrals | | | | | | | | | | | | |
| Sickness Absence Reduced to 4% | G | R | 0 | | | | | | | | | |
| Treatment within 62 days for Urgent Referrals of Suspicion of Cancer | G | G | G | | | | | | | | | |

| Indicator | April 11 | May 11 | Jun 11 | Jul 11 | Aug 11 | Sep 11 | Oct 11 | Nov 11 | Dec 11 | Jan 12 | Feb 12 | Mar 12 |
|---|----------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|
| Treatment within 31 days of decision to treat for all Patients diagnosed with Cancer | O | G | G | | | | | | | | | |

| Combined Performance | G | G | G | | | | | | | | | |
| Combined Performance Linked Pathway | - | | | | | | | | | | | |
| No CAMHS waits over 26 wks | G | G | G | | | | | | | | | |
| 4 Week Waiting Target for Diagnostics | R | | R | | | | | | | | | |

| Indicator | April 11 | May 11 | Jun 11 | Jul 11 | Aug 11 | Sep 11 | Oct 11 | Nov 11 | Dec 11 | Jan 12 | Feb 12 | Mar 12 |
|--|----------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|
| 4-Hour Waiting Target for A&E | | | | | | | | | | | | |
| Increase complex care needs treatment at home | - | G | G | | | | | | | | | |
| Diagnosis of dementia ¹ | - | - | | | | | | | | | | |
| Reduction in rate (per 100,000) of A&E and MIU Attendees | | R | R | | | | | | | | | |
| 15% Reduction in Staph aureus bacteraemia | G | G | G | | | | | | | | | |
| 30% Reduction in C. Diff (CDAD) | R | G | G | | | | | | | | | |
| Admitted to the Stroke Unit within 1 day of admission | - | | G | | | | | | | | | |
| No Delayed Discharges over 6 Wks | G | R | R | | | | | | | | | |

Notes:

1 As the target period completed at the end of March has not been monitored nationally, now a local collection system is in place

To Be Added:

Same Day Surgery Rates - Planning and Performance are working with IM&T Developers to report on this data from the new Trakcare system, the timeline is to be confirmed

eKSF Annual Reviews – Nationally trajectories are being worked up for the continuation of this target and data is not yet available, the timeline is to be confirmed.

DASHBOARD OF HEAT TARGETS

* for these targets there is a lag in reporting and data included is the most up to date data available which may not be last month's.

| Target no | Target Descriptor | Target Date | 2011/12 Target | Current Target | Current Performance | Performance Last Month | Performance Compared to Last Month | Status |
|--------------|---|----------------|-------------------|-------------------|------------------------|---------------------------|--|--------|

| | Delayed Discharges under 6 wks | | | | discharges under 6 v Jes under 6 weeks | veeks. | | |

This includes interventions carried out by the substance misuse liaison service.
Same day surgery figures are unavailable, Planning and Performance are working with IM&T Developers on developing a report for this target.
Nationally, the target and trajectories have to be agreed.
This target was due for delivery in March 2011. Work is ongoing to achieve the target.
The infection control team record all SABS across NHS Borders and for every incident a root cause analysis is performed.
These targets are the maximum numbers of infections allowed per month

The following targets cannot be reported on a monthly basis, as data is not available regularly. The table below indicates how progress will be reported.

| Target Area | Target Descriptor | Target Date | Target | Frequency of Reporting |
|-----------------------|---|----------------|--|--|
| Health Improvement | Completion rates for child healthy weight intervention programme | March 2012 | 100 | Managing Our Performance Report – 6 and 12 month intervals |
| Health Improvement | Reduce Suicide Rate between 2002 and 2013 by 20% | Dec 2013 | 14.2 | Managing Our Performance Report – 6 and 12 month intervals |
| Health Improvement | 60% of 3 & 4 year olds to have fluoride varnishing twice a year | March 2012 | 41% | Managing Our Performance Report – 6 and 12 month intervals |
| Health Improvement | Increase the proportion of new-born children breastfed at 6-8 weeks. | March 2012 | 33.3% | Managing Our Performance Report – 6 and 12 month intervals |
| Efficiency | Boards to operate within agreed revenue resource limit, capital resource limit and meet cash requirement | March 2012 | 0 | Managing Our Performance Report – 6 and 12 month intervals |
| Efficiency | Boards to deliver 3% efficiency saving to reinvest in frontline services | March 2012 | £8,572,000 | Managing Our Performance Report – 6 and 12 month intervals |
| Efficiency | Reduction in energy based carbon emissions and energy consumption | March 2012 | Energy GJ 93,169 CO2 tonnes 3,159 | Managing Our Performance Report – 6 and 12 month intervals |
| Access to Services | 90% of clients will wait no longer than 3 weeks from referral received to appropriate drug or alcohol treatment | Dec 2012 | 90% | Managing Our Performance Report – 6 and 12 month intervals |
| Access to Services | 18 weeks referral to treatment for psychological therapies | Mar 2012 | TBC | Managing Our Performance Report – 6 and 12 month intervals |
