

Freedom of Information request 56-19

Request

I was also hoping to find out the number of admissions to A&E your health board has had due to knife related injuries.

If possible, could you break down your answer by hospital/facility and provide details from 2014 onwards, broken down by month.

Response

Please find below the number of recorded admissions to A&E due to knife related injuries in the time period in question:

Date	A&E Admissions
2016'17	
Mar-17	<5
2017'18	
Sep-17	<5
Grand Total	<5

Please note this is not a code regularly recorded as a primary diagnosis within our A&E electronic system therefore to retrieve further data would require a manual trawl of all patient records and the cost of carrying out this work would exceed the limit set in the FOI(S)A 2002 and therefore we are not required to provide.

As the number of events in some areas are very small and in accordance with the Code of Practice for Official Statistics any number that is less than five, actual numbers and potentially identifiable information is withheld to help maintain patient confidentiality due to potential risk of disclosure. Further information is available in the [ISD Statistical Disclosure Control Protocol](#).

If you are not satisfied with the way your request has been handled or the decision given, you may ask NHS Borders to review its actions and the decision.
