

Freedom of Information request 196-20

Request

Could the Board provide the following under freedom of information legislation:

- The number of data breaches there have been in the health board in relation to COVID-19 test results or associated patient data.

Please treat one patient's data or test result as a single breach, even if multiple were lost or hacked or sent to the wrong person/address at the same time.

Response

NHS Borders have recorded <5 adverse events in relation to data breaches due to COVID-19 test results or associated patient data.

Please note that as NHS Borders is such a small Board the number is very small, and to provide further details of events could allow individuals to be identified and we would be in breach of the Data Protection Act 1998. We are therefore withholding all other data under Section 38(2)(ii) of the Freedom of Information (Scotland) Act 2002. This is also in accordance with the Code of Practice for Official Statistics any number that is less than five, actual numbers and potentially identifiable information is withheld to help maintain patient confidentiality due to potential risk of disclosure. Further information is available in the ISD Statistical Disclosure Control Protocol.

If you are not satisfied with the way your request has been handled or the decision given, you may ask NHS Borders to review its actions and the decision. If you would like to request a review please apply in writing to, Freedom of Information Review, NHS Borders, Room 2EC3, Education Centre, Borders General Hospital, Melrose, TD6 9BS or foi.enquiries@borders.scot.nhs.uk.

Please state the reference number **196-20** on this request. Your request should be made within 40 working days from receipt of this letter.

If following this review, you remain dissatisfied with the outcome, you may appeal to the Scottish Information Commissioner and request an investigation of your complaint.
