Response

NHS Borders do not hold this data electronically, this data is only available in a patient's notes and to extract this would require a manual trawl of the records of all patients admitted to hospital during this period and the cost of carrying out this work would exceed the limit set in the Fees Regulations of the FOI(S)A 2002 and therefore we are not required to provide.

This data may be accessible electronically from a GP practice but you would need to contact each practice individually, a list of practices is available at the following link:
