

## Freedom of Information request 401-22

---

### Request

I am looking for information regarding the use of private car hire journeys. As such, please provide the following information in excel format for the last three financial years (2020/21, 2021/22 and 2022/23):

Question 1) How many taxi or private car hire journeys were required to transfer equipment for use between one hospital and another, with a breakdown by cost

Question 2) How many taxi or private car hire journeys were required to transport staff between one hospital and another, with a breakdown by cost?

Question 3) The five most expensive many taxi or private car hire journeys in that period, with a breakdown by date and purpose?

### Response

NHS Borders uses taxis for a variety of reasons. This can include patient transport, transfer of equipment, urgent transportation of laboratory samples, x-rays from radiology and patient case notes. The information contained on invoices from taxi companies does not distinguish the reason or number of journeys for transportation. Therefore, under Section 17 of the Freedom of Information (Scotland) Act 2002, a breakdown cannot be provided as this information is not held.

However, we can provide the total cost of taxi or private car hire journeys for each year within the timeframe of the request. These can be found below:

|                     | 2020/21     | 2021/22     | 2022/23     | Grand Total |
|---------------------|-------------|-------------|-------------|-------------|
| <b>Sum of Total</b> | £240,344.78 | £301,014.06 | £187,448.89 | £728,807.73 |
