This information is not held electronically. The data may be held in a patient's record, but to extract this data would require a manual trawl of all patient records and the cost of carrying out this work would exceed the limit set in the Fees Regulations of the Freedom of Information (Scotland) Act 2002 and under Section 12 we are not required to provide.

As the number of events in some areas are very small and in accordance with the Code of Practice for Official Statistics any number that is less than five, actual numbers and potentially identifiable information is withheld to help maintain patient confidentiality due to potential risk of disclosure. Further information is available in the [ISD Statistical Disclosure Control Protocol](#).
