

Freedom of Information request 69-23

Request

What was the longest wait in hours and minutes that a patient had in A&E before admission, transfer, or discharge in the year January to December 2022

Response

The longest wait that a patient had in the A&E Department of the Borders General Hospital in 2022 was 57 hours 56 minutes. This patient was seen, treated, and referred for a bed within 3 hours of arrival. However, for medical reasons, the patient required placement in a specific area and therefore was cared for in A&E until a bed became available.
