

Freedom of Information request 585-23

Request

A recent policy lab was carried out at King's College London aimed at advancing the Women's Health Strategy by improving access to appropriate management of Hyperemesis Gravidarum (HG) for pregnant people who suffer with this condition.

Key stakeholders felt it would be valuable to gain an understanding of the way in which HG/ nausea and vomiting of pregnancy (NVP) care is currently provided across the UK. This will allow us to further improve access to care for all women across all regions.

We will therefore be extremely grateful in your support in providing the following information on the attached questionnaire.
