

# Lived Experience Forum

**Do you have experience of using alcohol and drug services in the Borders?**

**Maybe you are caring for someone who does?**

The Lived Experience Forum aims to give people with lived and living experience a voice so that they have the opportunity to help inform the work of local services and the Alcohol and Drug Partnership (ADP).

**Training and support will be provided for reps of this forum**

# Have your voice heard..

People with lived experience and professionals in the Scottish Borders are working together to improve local services.

This forum provides input to the ADP on their overall strategy which helps to improve services and the outcomes of people who use them. The forum is open to anyone who has lived or living experience of drugs or alcohol services including family and community members.

## THE ADP IS RESPONSIBLE FOR:

- Ensuring there is the correct range of drug and alcohol services available in Borders
- Making the decisions on how the funding from Scottish Government will be spent
- Communicating the impact of activities to service users and the public
