OUR VALUES IN ACTION

●Care and Compassion ●Quality and Teamwork ●Dignity and Respect ●Openness, honesty and responsibility

Why work for us?

Patients are at the centre of everything we do in our daily working lives at NHS Borders ensuring they are safe, cared for efficiently, effectively by suitably experienced and qualified staff driving quality at the heart of patient care. We are a dynamic and forward thinking team with a wealth of clinical and leadership experience. We aim for an open and honest culture and believe in nurturing future stars in NHS.

Borders General Hospital is a modern and well-equipped 320 bed DGH serving the rural Borders area in South East Scotland, approximately 36 miles from Edinburgh. After an absence of almost 50 years, the Borders Railway has now opened, with train services to central Edinburgh running every thirty minutes (journey time 50 minutes approx). Tweedbank Station is a few minutes walk from the Borders General Hospital. On opening the railway Her Majesty Queen Elizabeth said "The Borders railway brings so much promise for sharing and invigorating this most beautiful countryside as a place to work, live and enjoy". A relocation package/assistance up to full Inland Revenue limits with the possibility of temporary accommodation in the local area is available for the successful candidate.

All new consultants are welcome to join the consultant development programme. The programme seeks to provide you with support for the development of leadership and management skills. There are also opportunities for professional coaching and mentoring – an established BGH consultant will be identified as a "buddy" in your first few weeks.

The Role

This is an exciting chance to be part of a well-established and high quality cardiac services team in a modern, well-equipped District General Hospital serving the beautiful Borders area in South East Scotland. There is a well established regional network including close links with the tertiary centre in Edinburgh

Candidates must be fully registered with the General Medical Council with a licence to practice and preferably in the Specialist Register for Cardiology/Cardiovascular Medicine before taking up the post. You must possess an MRCP or equivalent certificate. You may wish to work full time up to 10 programmed activities or a lesser part-time commitment.

For informal enquiries and to arrange an informal visit, please contact Dr Paul Neary, Consultant Cardiologist on 01896 826648 or Dr Anne Scott 01896 826631.

Informal enquiries and visits are welcome. Any applicant wishing to view the Department or discuss the vacancy can initially speak to Medical Staffing on 01896 826167.
